25th week

District wise disease alerts-outbreaks reported in the 25th week 2026

25th Week Map

Unique ID.	Name of State-UT	Name of District	Disease- Illness	No. of Cases	No. of Deaths	Date of Start of Outbreak	Date of Reporting	Current Status	Comments- Action Taken
AP/LOH/2026/25/976	Arunachal Pradesh	Lohit	Suspected Typhoid	10	0	19-06-2026	19-06-2026	Under Surveillance	Cases of fever with abdominal discomfort and nausea were reported from Village Namgo, Sub-District Wakro Circle, District Lohit. District RRT investigated the outbreak. House to house survey was done. Medicine was given to cases. The affected age group was 5-46 years. Community awareness and health education given by the peripheral team on safe drinking water and food habits, hygiene and sanitation.
AS/BAR/2026/25/977	Assam	Barpeta	Japanese Encephalitis	1	1	15-06-2026	16-06-2026	Under Surveillance	A 59-year-old male from Garertari Village, Sub-District Sarthebari, District Barpeta developed acute onset of fever and vomiting on 31.05.2026 and attended the e-OPD at Barpeta Medical College and Hospital (BMCH) on the same day, from where he was discharged. Later that night, he developed altered sensorium and revisited BMCH in the early hours of 01.06.2026. He was advised admission; however, the patient's family opted to shift him to GNRC, North Guwahati, for further treatment. He was admitted to GNRC on 01.06.2026. A CSF sample collected on 02.06.2026 tested equivocal for Japanese Encephalitis (JE) virus on 04.06.2026. The patient became drowsy, developed multiple episodes of seizures, was intubated,

									admitted to the ICU, and managed with anti-epileptic drugs and ventilator support. On request, he was discharged from GNRC on 05.06.2026 and shifted by ambulance to GMCH, where he was admitted to the MITU. A serum sample collected on 08.06.2026 tested positive for Japanese Encephalitis virus on 09.06.2026. The patient died at GMCH on 12.06.2026. The Medical Certificate of Cause of Death (MCCD) recorded the immediate cause of death as Acute Encephalitis Syndrome (AES) and the antecedent cause as septic induced acute kidney injury. Community awareness and health education given by the peripheral team on vector control measures, hygiene and sanitation.
AS/BAR/2026/25/978	Assam	Barpeta	Japanese Encephalitis	2	2	15-06-2026	16-06-2026	Under Surveillance	Two JE cases were reported from Villages Paka Betbari Pathar and Dona Kuchi, Sub-District Barpeta, District Barpeta. A 20-year-old male developed fever with headache and loss of appetite on 31.05.2026, followed by altered sensorium on 03.06.2026. His CSF sample was collected on 06.06.2026 and tested Positive for JE Virus on 12.06.2026. Patient died on 08.06.2026 in BMCH. The MCD issued from BMCH recorded as: Immediate cause of death- Septic shock, Antecedent cause- Lower respiratory tract infection. The second patient, an 83-year-old male, developed fever on 30.06.2026, followed by altered sensorium, and was admitted to

									BMCH on 01.07.2026. A serum sample collected on 03.07.2026 tested positive for JE virus on 07.07.2026. The patient died on 11.07.2026. The MCD issued from BMCH recorded as: Immediate cause of death: Septic encephalopathy, Antecedent cause: Japanese encephalitis and Other significant condition: Systemic hypertension. Community awareness and health education given by the peripheral team on vector control measures, hygiene and sanitation.
AS/MAJ/2026/25/979	Assam	Majuli	Acute Diarrhoeal Disease	15	0	18-06-2026	18-06-2026	Under Surveillance	Cases of vomiting, general weakness, abdominal pain, fever and loose motion were reported from Village Kamar Gaon, Sub-District Majuli, District Majuli.
