Eight water samples were collected & tested at DPHL Yadgir, out of which 4 were NSPP (not suitable for potable purpose). District RRT investigated the outbreak. Community awareness and health education given by peripheral team on control measures, hygiene and sanitation.

KL/ERN/2024/30/1685	Kerala	Ernakulam	ARI- Influenza Like Illness(ILI)	19	0	23-07-2024	24-07-2024	Under Control	Cases were reported from a school under UPHC Ponnurunni, Sub-District: Kanayannur, District: Ernakulam. Cases presented with fever, cough, cold and vomiting. The affected age group was 6-9 years. Three nasopharyngeal swab samples were sent to NIV Alleppey, all were negative for ARI viral panel test viral (which includes Influenza, Enterovirus, RSV, SARS CoV). District RRT investigated the outbreak. Community awareness and health education given by peripheral team on control measures, hygiene and sanitation.
KL/IDK/2024/30/1686	Kerala	Idukki	Mumps	15	0	19-07-2024	25-07-2024	Under Control	Cases were reported from a school under CHC Karunapuram, Village: Karunapuram, Sub-District: Udumbanchola, District: Idukki. Cases presented with fever & swelling in the neck. All cases were diagnosed clinically. The affected age group was 5-7 years. All affected cases were fully immunized. District RRT investigated the outbreak. Community awareness and health education given by peripheral team on control measures, hygiene and sanitation. Outreach immunization was conducted in the affected area.
KL/KOZ/2024/30/1687	Kerala	Kozhikode	Hepatitis A	29	0	23-07-2024	24-07-2024	Under Surveillance	Cases were reported from CHC Mukkom, Village: Neeleswaram, Sub-District: Kozhikode, District: Kozhikode. Cases presented on 4/7/2024 with jaundice after attending a wedding on 9/6/2024 in the nearby area. The most affected age group was 11-19 years, predominantly affecting children. One case was hospitalized for treatment. Five blood samples were sent to RPHL Kozhikode, all were positive for Hepatitis A IgM by ELISA. District RRT investigated the outbreak. Community awareness and health education given by peripheral team on control measures, hygiene and sanitation.

KL/MLP/2024/30/1688	Kerala	Malappuram	Hepatitis A	59	0	26-07-2024	26-07-2024	Under Surveillance	Cases were reported from a school under HWC Aroor, FHC Pulikkal, Village: Pulikkal, Sub-District: Kondotty, District: Malappuram. Cases presented with jaundice. The affected age group was 6-12 years. One case was hospitalized for treatment. Two blood samples were collected and sent to DPHL Malappuram, both were positive for Hepatitis A IgM by ELISA. Two water samples were collected for analysis, which were found to be NSPP (not suitable for potable purpose). District RRT investigated the outbreak. Awareness and health education given by peripheral team in the school on control measures, hygiene and sanitation. The outbreak might be caused by feco-oral contamination of drinking water.
KL/MLP/2024/30/1689	Kerala	Malappuram	Nipah Virus	1	1	20-07-2024	22-07-2024	Under Surveillance	Case were reported from PHC Pandikkad, Village: Pandikkad, Sub-District: Ernad, District: Malappuram. A 14 year old male presented with fever, decreased speech, difficulty in swallowing and altered sensorium. Total 217 samples were sent to NIV Pune, out of which 1 was positive for Nipah Virus by RTPCR. District RRT investigated the outbreak. Community awareness and health education given by peripheral team on control measures, hygiene and sanitation. Death of the 14 year old male has occurred due to the illness on 21/7/24 at Government Medical College, Kozhikode.
KL/WYN/2024/30/1690	Kerala	Wayanad	Acute Gastroenteritis	223	0	27-07-2024	28-07-2024	Under Surveillance	Cases were reported from FHC Edavaka, District: Wayanad. Cases presented with fever, diarrhea, vomiting, and abdominal pain. Water samples were tested by KWA, Manthavady, which were found to be positive for Coliform Bacteria. Three stool samples were sent for culture analysis, all showed no growth. District RRT investigated the outbreak. Community awareness and health education given by peripheral team on control measures, hygiene and sanitation.

KL/WYN/2024/30/1691	Kerala	Wayanad	Mumps	23	0	25-07-2024	26-07-2024	Under Surveillance	Cases were reported from a school under FHC Vazhavatta, Village: Muttill South, Sub-District: Vythiri, District: Wayanad. Cases presented with fever with swelling in the neck. Cases were clinically diagnosed. The affected age group was 5-14 years & all cases were not vaccinated for Mumps vaccine. District RRT investigated the outbreak. Community awareness and health education given by peripheral team on control measures, hygiene and sanitation.
KL/WYN/2024/30/1692	Kerala	Wayanad	Mumps	117	0	25-07-2024	26-07-2024	Under Surveillance	Cases were reported from a residential school under FHC Noolpuzha, Village: Noolpuzha, Sub-District: Sulthanbathery, District: Wayanad. Cases are presented with fever with parotid gland swelling. The affected age group was 5-17 years. Eleven buccal swab samples were sent to NIV Alappuzha, out of which one was positive for Mumps virus. All other cases were diagnosed clinically had an epidemiological link. District RRT investigated the outbreak. Community awareness and health education given by peripheral team on control measures, hygiene and sanitation.
MP/ASK/2024/30/1693	Madhya Pradesh	Ashoknagar	Acute Diarrheal Disease	9	0	27-07-2024	27-07-2024	Under Control	Cases were reported from CHC Shadora, Village: Babupur, Sub-District: Shadhora, District: Ashoknagar. Cases presented with vomiting, loose motion and abdominal pain. Five stool samples were collected and sent to AIIMS Bhopal, out of which 1 was positive for Aeromonas punctata (caviae) on culture. Two water samples were collected and sent to DPHL Bhopal for microbiological test, both were found to be non-potable. District RRT investigated the outbreak. Community awareness and health education given by peripheral team on control measures, hygiene and sanitation.

MP/ASK/2024/30/1694	Madhya Pradesh	Ashoknagar	Acute Diarrheal Disease	32	0	22-07-2024	23-07-2024	Under Control	Cases were reported from CHC Isagarh, Village: Bakhtar Jagir, Sub-District: Isagarh, District: Ashoknagar. Cases presented with vomiting, loose motion and abdominal pain. All age groups were affected, both males & females were affected equally. One stool sample was collected and sent to AIIMS Bhopal, which showed no growth on culture. District RRT investigated the outbreak. Community awareness and health education given by peripheral team on control measures, hygiene and sanitation. The outbreak might be caused by consumption of contaminated drinking water from the tube well.
MP/BLG/2024/30/1695	Madhya Pradesh	Balaghat	Acute Diarrheal Disease	8	0	25-07-2024	26-07-2024	Under Surveillance	Cases were reported from PHC Kachnari, Village: Mandai, Sub-District: Birsa, District: Balaghat. Cases presented with diarrhea. District RRT investigated the outbreak. Community awareness and health education given by peripheral team on control measures, hygiene and sanitation.
MP/BDW/2024/30/1696	Madhya Pradesh	Barwani	Cholera	45	0	26-07-2024	26-07-2024	Under Surveillance	Cases were reported from a hostel under CHC Palsud, CHC Rajpur, Ward 12, Sub-District: Rajpur, District: Barwani. Cases presented with loose motions, vomiting. Five water & three stool samples were collected and sent to Govt. P.C.Sethi Hospital Indore. Stool samples showed growth of Vibrio cholera O1 on culture. Water samples were found to be non-potable. District RRT investigated the outbreak. Community awareness and health education given by peripheral team on control measures, hygiene and sanitation.

MP/BDW/2024/30/1697	Madhya Pradesh	Barwani	Food Poisoning	52	0	19-07-2024	22-07-2024	Under Surveillance	Cases were reported from an ashram under CHC Niwali, Village: Niwali Buzurg, Sub-District: Niwali, District: Barwani. Cases presented with loose motions, vomiting after consumption of food from a common kitchen. Two water & four stool samples were collected and sent to Govt. P.C.Sethi Hospital Indore. Stool samples showed growth of Vibrio species on culture. Water samples were found to be non-potable. District RRT investigated the outbreak. Community awareness and health education given by peripheral team on control measures, hygiene and sanitation.
MP/BPL/2024/30/1698	Madhya Pradesh	Bhopal	Acute Diarrheal Disease	42	0	20-07-2024	23-07-2024	Under Surveillance	Cases were reported from PHC Nazeerabad, HWC Mazidgarh, Village: Rawatpura, Sub-District: Berasia, District: Bhopal. Cases presented with diarrhea, vomiting and abdominal pain. 7 stool samples were sent to JP DPHL, all showed no growth on culture. District RRT investigated the outbreak. Community awareness and health education given by peripheral team on control measures, hygiene and sanitation.
MP/CDW/2024/30/1699	Madhya Pradesh	Chhindwara	Acute Diarrheal Disease	27	0	22-07-2024	24-07-2024	Under Surveillance	Cases were reported from PHC Chhindi, Village Chintipur, Sub-District: Tamia, District: Chhindwara. Cases presented with loose stools and vomiting. One water sample was sent to PHED Tamia, which was found to be potable. District RRT investigated the outbreak. Community awareness and health education given by peripheral team on control measures, hygiene and sanitation.

MP/DWS/2024/30/1700	Madhya Pradesh	Dewas	Acute Diarrheal Disease	47	0	23-07-2024	23-07-2024	Under Surveillance	Cases were reported from CHC Bagli, Sub-District: Bagli, District: Dewas. Cases presented with vomiting, diarrhea and fever. Two stool & seven water samples were sent to Department of Microbiology, MGM Medical College, Indore. Stool samples were negative for any entero-pathogenic organism on culture. Water samples were found to be non-potable. District RRT investigated the outbreak. Community awareness and health education given by peripheral team on control measures, hygiene and sanitation.
MP/DHR/2024/30/1701	Madhya Pradesh	Dhar	Acute Diarrheal Disease	26	0	22-07-2024	23-07-2024	Under Control	Cases were reported from CHC Dahi, Village: Pithampur, Sub-District: Dahi, District: Dhar. Cases presented with vomiting, abdominal pain & loose motion. Three stool samples were collected & sent to DPHL Microbiology Lab, Govt. P.C.Sethi Hospital Indore, all showed no growth on culture. District RRT investigated the outbreak. Community awareness and health education given by peripheral team on control measures, hygiene and sanitation.
MP/DIN/2024/30/1702	Madhya Pradesh	Dindori	Acute Diarrheal Disease	75	0	18-07-2024	22-07-2024	Under Surveillance	Cases were reported from PHC Gadasarai, SHC & Village Bijouri, Sub-District: Bajag, District: Dindori. Cases presented with diarrhea. One stool, 4 water & food samples were collected & sent to Microbiology Department, Medical College Jabalpur. Stool sample showed no growth on culture. One water sample was found to be unfit for drinking. All 4 food samples showed no growth on culture. District RRT investigated the outbreak. Community awareness and health education given by peripheral team on control measures, hygiene and sanitation.

MP/DIN/2024/30/1703	Madhya Pradesh	Dindori	Acute Diarrheal Disease	71	0	11-07-2024	22-07-2024	Under Surveillance	Cases were reported from CHC Amarpur, SHC Charpani, Village Manori, Sub-District: Dindori, District: Dindori. Cases presented with diarrhea. Two stool, 1 food & 4 water samples were collected & sent to Microbiology Department, Medical College Jabalpur. Both stool samples showed no growth on culture. Two water samples were found to be unfit for drinking. District RRT investigated the outbreak. Community awareness and health education given by peripheral team on control measures, hygiene and sanitation.
MP/GUN/2024/30/1704	Madhya Pradesh	Guna	Acute Diarrheal Disease	16	0	27-07-2024	28-07-2024	Under Surveillance	Cases were reported from PHC Fatehgarh, HWC Paranth, Village: Paranth, Sub-District: Bamori, District: Guna. Cases presented with loose motion. Five stool samples were collected & sent to GMC Shivpuri, all showed no growth on culture. District RRT investigated the outbreak. Community awareness and health education given by peripheral team on control measures, hygiene and sanitation.
MP/GWL/2024/30/1705	Madhya Pradesh	Gwalior	Only Fever < 7 days	15	0	24-07-2024	24-07-2024	Under Control	Cases were reported from an ashram in Sikroda Gaon, Block Hastinapur, Gwalior District. Cases presented with fever and dehydration. Total 15 blood samples were collected & tested, all were negative for Malaria by RDT. District RRT investigated the outbreak. Community awareness and health education given by peripheral team on vector control measures, hygiene and sanitation.
MP/KTN/2024/30/1706	Madhya Pradesh	Katni	Acute Diarrheal Disease	42	0	22-07-2024	23-07-2024	Under Surveillance	Cases were reported from PHC Kanhwara, Sub-District: Murwara, District: Katni. Cases presented with diarrhea. One water sample was collected & tested by PHE Department, which showed no growth on culture. District RRT investigated the outbreak. Community awareness and health education given by peripheral team on control measures, hygiene and sanitation.

MP/KAT/2024/30/1707	Madhya Pradesh	Katni	Acute Diarrheal Disease	24	3	22-07-2024	23-07-2024	Under Surveillance	Cases were reported from CHC Umariyapan, Village Chhota Kachhargao, Sub-District: Dhimarkheda, District: Katni. Cases presented with diarrhea. Total 21 water samples were collected and tested by PHE Department, all showed no growth on culture. District RRT investigated the outbreak. Community awareness and health education given by peripheral team on control measures, hygiene and sanitation. Three deaths have occurred due to dehydration (3 year/female, 35 year/female & 60 year/female). The outbreak might be caused by consumption of contaminated bore well water.
MP/KHR/2024/30/1708	Madhya Pradesh	Khargone	Acute Diarrheal Disease	16	0	24-07-2024	24-07-2024	Under Surveillance	Cases were reported from PHC Royalbeda, Village: Kothbeda, Sub-District: Jhiranya, District: Khargone. Cases presented with diarrhea. The affected age group was 3-8 years. Three stool & 1 water samples were sent to DPHL Indore. Stool samples showed no growth on culture. Water sample was unsatisfactory for drinking. District RRT investigated the outbreak. Community awareness and health education given by peripheral team on control measures, hygiene and sanitation.
MP/MND/2024/30/1709	Madhya Pradesh	Mandla	Cholera	30	0	25-07-2024	25-07-2024	Under Surveillance	Cases were reported from PHC Madhopur, Village: Madhopur, Sub-District: Bichhiya, District: Mandla. Cases presented with abdominal pain, vomiting & loose motion. Total 12 stool samples were collected and sent to NIV Pune by NSCB Medical College Jabalpur, out of which one was positive for V.cholerae O1 Ogawa on culture. Eight water samples were collected & sent to NSCB Medical College Jabalpur, all were found to be unsatisfactory by MPN method. District RRT investigated the outbreak. Community awareness and health education given by peripheral team on control measures, hygiene and sanitation.

MP/MND/2024/30/1710	Madhya Pradesh	Mandsaur	Dengue	20	0	27-07-2024	27-07-2024	Under Surveillance	Cases were reported from PHC Nimbod, Village: Nimbod, Sub-District: Daloda, District: Mandsaur. Cases presented with fever and weakness. The affected age group was 33-47 years. Total 20 blood samples were collected and sent to District Hospital, out of which 14 were positive for Dengue NS1 Ag by ELISA. District RRT investigated the outbreak. Community awareness and health education given by peripheral team on control measures, hygiene and sanitation. Entomological indices were: HI = 6.90-85.33, CI = 1.25-16.00, BI = 6.90-85.33. During the survey larva was found in drums water tanks, plant pots, buckets etc.
MP/NSG/2024/30/1711	Madhya Pradesh	Narsinghpur	Dengue	31	0	25-07-2024	25-07-2024	Under Surveillance	Cases were reported from PHC Chichli, Village Chichali, Sub-District: Gadarwara, District: Narsinghpur. Cases presented with fever, headache, body pain, joint pain, etc. Total 31 samples were sent for testing, out of which 17 were positive for Dengue NS1 Ag. District RRT investigated the outbreak. Community awareness and health education given by peripheral team on vector control measures, hygiene and sanitation. Source of vector breeding was artificial collection of water around the affected area.
MP/NSG/2024/30/1712	Madhya Pradesh	Narsinghpur	Dengue	21	0	25-07-2024	25-07-2024	Under Surveillance	Cases were reported from PHC Amgaon Bada, Village: Tinsara, Sub-District: Kareli, District: Narsinghpur. Cases presented with Dengue. Total 21 samples were sent to CHC Kareli, out of which 4 were positive for Dengue NS1 Ag. District RRT investigated the outbreak. Community awareness and health education given by peripheral team on vector control measures, hygiene and sanitation. Source of vector breeding was artificial collection of water around the affected area. A total of 810 containers were surveyed, out of which 38 showed presence of larvae. Temephos tablets were distributed.

MP/RIE/2024/30/1713	Madhya Pradesh	Raisen	Acute Diarrheal Disease	19	0	26-07-2024	26-07-2024	Under Surveillance	Cases reported from Village Mendki, SHC Ratanpur, PHC Mudiya Kheda, Block Sanchi, District Raisen. Cases presented with diarrhea. Two stool samples were collected and sent to GMC Bhopal, both showed no growth on culture. Five water samples were collected & sent to PHE Lab & DPHL Bhopal, all were found to be unfit for drinking. District RRT investigated the outbreak. Community awareness and health education given by peripheral team on control measures, hygiene and sanitation.
MP/STN/2024/30/1714	Madhya Pradesh	Satna	Acute Diarrheal Disease	40	0	27-07-2024	27-07-2024	Under Surveillance	Cases were reported from PHC Badera 2, Village: Maudaha, Sub-District: Maihar, District: Satna. Cases presented with diarrhea and vomiting. The affected age group was 11-20 years. Water sample was collected & sent to DPHL Rewa, which showed growth of Pseudomonas aeruginosa on culture. District RRT investigated the outbreak. Community awareness and health education given by peripheral team on control measures, hygiene and sanitation. The possible source of infection was the supplied water pipe line which have contaminated water and a hand pump.
MP/STN/2024/30/1715	Madhya Pradesh	Satna	Acute Diarrheal Disease	66	1	25-07-2024	25-07-2024	Under Surveillance	Cases were reported from CH Maihar, Village: Delha, Sub-District: Maihar, District: Satna. Cases presented with diarrhea and vomiting. The affected age group was 1-10 & 21-30 years. One stool and 1 water samples were collected sent to DPHL Rewa. Stool sample showed no growth on culture. Water sample showed presence of E.coli & Pseudomonas species. District RRT investigated the outbreak. Community awareness and health education given by peripheral team on control measures, hygiene and sanitation. Death of a 34 year old male has occurred due to the illness.

MP/STN/2024/30/1716	Madhya Pradesh	Satna	Acute Diarrheal Disease	14	0	23-07-2024	23-07-2024	Under Control	Cases were reported from PHC Sabhaganj, Village: Hardua Sani, Sub- District: Maihar, District: Satna. Cases presented with diarrhea and vomiting. The affected age group was 1-10 years. One stool and 2 water samples were collected & sent to DPHL Rewa. Water samples were found to be unsatisfactory for drinking on culture. District RRT investigated the outbreak. Community awareness and health education given by peripheral team on control measures, hygiene and sanitation.
MP/SER/2024/30/1717	Madhya Pradesh	Sehore	Acute Diarrheal Disease	20	0	26-07-2024	26-07-2024	Under Control	Cases were reported from PHC Dewadia, Village: Kundikhal, Sub-District: Ichhawar, District: Sehore. Cases presented with loose motion, vomiting. The affected age group was 10-72 years. Two stool samples were sent to JP Hospital Bhopal, both were negative for any entero-pathogen. Four water samples were sent to District Water Testing Laboratory, PHED, out of which 3 showed presence of E.coli. District RRT investigated the outbreak. Community awareness and health education given by peripheral team on control measures, hygiene and sanitation.
MP/SER/2024/30/1718	Madhya Pradesh	Sehore	Malaria	9	0	26-07-2024	26-07-2024	Under Surveillance	Cases were reported from CHC Shahganj, Village: Samnapur, Sub-District: Budni, District: Sehore. Cases presented with fever. Nine blood samples were tested, out of which 3 were positive for Malaria (two were positive for P.falciparum & one for P.vivax) by RDT kits. District RRT investigated the outbreak. Community awareness and health education given by peripheral team on vector control measures, hygiene and sanitation.
MP/SER/2024/30/1719	Madhya Pradesh	Sehore	Dengue	7	0	26-07-2024	26-07-2024	Under Surveillance	Cases were reported from N PHC Chakaldi, Village: Ramgarha, Sub-District: Nasrullaganj, District: Sehore. Cases presented with fever. Seven blood samples were sent to DH Sehore, out of which 4 were positive for Dengue NS1 Ag by ELISA. District RRT investigated the outbreak. Community awareness and health education given by peripheral team on vector control measures, hygiene and sanitation.

MP/SIN/2024/30/1720	Madhya Pradesh	Singrauli	Acute Diarrheal Disease	27	0	22-07-2024	24-07-2024	Under Surveillance	Cases were reported from CHC Khutar, Village: Sigahi, Sub-District: Mada, District: Singrauli. Cases presented with loose motion. One stool and water samples were collected & sent to DPHL Rewa. Stool samples showed no growth on culture. Water sample showed growth of E.coli, Pseudomonas aeruginosa on culture. District RRT investigated the outbreak. Community awareness and health education given by peripheral team on control measures, hygiene and sanitation.
MP/UMR/2024/30/1721	Madhya Pradesh	Umaria	Acute Diarrheal Disease	14	3	23-07-2024	25-07-2024	Under Control	Cases were reported from CHC Chandia, PHC Karkeli, SHC Belsara, Village: Belsara, Sub-District: Karkeli, District: Umaria. Cases presented with diarrhea. Five stool samples were sent to MC Rewa, which showed no growth on culture. Total 24 water sample were sent to PHED, which were found to be non-potable. District RRT investigated the outbreak. Community awareness and health education given by peripheral team on control measures, hygiene and sanitation. Three deaths have occurred due to dehydration (30 year/male, 55 year/male & 62 year/male).
MP/VDS/2024/30/1722	Madhya Pradesh	Vidisha	Acute Diarrheal Disease	9	0	26-07-2024	26-07-2024	Under Surveillance	Cases were reported from PHC Kagpur, Village: Amaukhedi, Sub-District: Vidisha, District Vidisha. Cases presented with diarrhea and vomiting. The affected age group was 5-20 years. Three rectal swabs were collected and sent to Govt. Medical College Vidisha, all showed no growth of pathogenic organism. Water samples were collected by PHE Department, which were found to be potable. District RRT investigated the outbreak. Community awareness and health education given by peripheral team on control measures, hygiene and sanitation.

MH/AMN/2024/30/1723	Maharashtra	Ahmednagar	Cholera	6	0	25-07-2024	26-07-2024	Under Control	Cases were reported from Health Facility: Chasnali, Village: Chas, Sub-District: Kopargaon, District: Ahmednagar. Cases presented with loose motion. One stool sample was sent to PMT (Pravara Medical Trust Hospital) Loni, which was positive for Vibrio cholera O1 on microscopy. District RRT investigated the outbreak. Community awareness and health education given by peripheral team on control measures, hygiene and sanitation.
MH/AVT/2024/30/1724	Maharashtra	Amravati	Acute Diarrheal Disease	47	0	22-07-2024	25-07-2024	Under Surveillance	Cases were reported from Motha SC, Salona PHC, Village: Adnadi, Sub-District: Chikhaldara, District: Amravati. Cases presented with loose motion, vomiting, nausea, abdominal pain. The most affected age group was 1-5 years. Total 12 water samples were sent to DPHL Amravati, all were found to be potable. District RRT investigated the outbreak. Community awareness and health education given by peripheral team on control measures, hygiene and sanitation. The outbreak might be caused by contamination of tap water due to accumulation of water at the tap site.
MH/GDC/2024/30/1725	Maharashtra	Gadchiroli	Malaria	6	1	26-07-2024	26-07-2024	Under Control	Cases were reported from SC Mallampadur, PHC Laheri, Village: Mallampadur, Sub-District: Bhamragad, District: Gadchiroli. Cases presented with fever. Six blood samples were sent for testing, all were positive for Malaria by Rapid Diagnostic Test (Malaria Ag). District RRT investigated the outbreak. Community awareness and health education given by peripheral team on vector control measures, hygiene and sanitation. Death of a 9 year old male child has occurred due to Cerebral Malaria on 24/07/2024 at GH Gadchiroli (BS positive for Malaria PF).

MH/GDC/2024/30/1726	Maharashtra	Gadchiroli	Malaria	2	1	26-07-2024	26-07-2024	Under Control	Cases were reported from SC Sonsari, PHC Kadholi, Village: Bandhgaon, Sub-District: Kurkheda, District: Gadchiroli. Cases presented with fever. Two blood samples were sent for testing, both were positive for Malaria (PF) on microscopy. District RRT investigated the outbreak. Community awareness and health education given by peripheral team on vector control measures, hygiene and sanitation. Death of a 16 year old male has occurred due to the illness on 24/07/2024 at DH Gadchiroli (BS positive for Malaria PF).
MH/GDC/2024/30/1727	Maharashtra	Gadchiroli	Malaria	4	1	22-07-2024	22-07-2024	Under Control	Cases were reported from SC Kotgul PHC Kotgul, Village: Yedjal Masahat, Sub-District: Korchi, District: Gadchiroli. Cases presented with fever. Four blood samples were sent for testing, all were positive for Malaria (2 for P.falciparum and 2 for P.vivax) by Rapid Diagnostic Test (Malaria Ag). District RRT investigated the outbreak. Community awareness and health education given by peripheral team on vector control measures, hygiene and sanitation. Death of a 4 year old female child has occurred due to the illness on 21/07/2024 at GMC Chandrapur (BS positive for Malaria PF).
MH/JLG/2024/30/1728	Maharashtra	Jalgaon	Cholera	13	3	22-07-2024	26-07-2024	Under Control	Cases were reported from Health Facility: Adawad, Village: Kamalgaon, Sub-District: Chopda, District: Jalgaon. Cases presented with loose stools. Six stool samples were sent to GMC Aurangabad, out of which 5 were positive for V.cholera on culture. Two water samples were sent to SDL Chopda, both were found to be contaminated. District RRT investigated the outbreak. Community awareness and health education given by peripheral team on control measures, hygiene and sanitation. Three deaths have occurred due to the illness (1 year/female, 10 year/female & 17 year/female).

MH/NSK/2024/30/1729	Maharashtra	Nashik	Dengue	3	1	14-07-2024	23-07-2024	Under Surveillance	Cases were reported from Uswad, Sub-District: Chandvad, District: Nashik. Cases presented with fever with chills, body ache. Three serum samples were sent for testing, out of which 1 was positive for Dengue IgM by ELISA. District RRT investigated the outbreak. Community awareness and health education given by peripheral team on vector control measures, hygiene and sanitation. Death of a 37 year old female has occurred due to the illness at Apollo Hospital Nashik (positive for Dengue).
MH/NSK/2024/30/1730	Maharashtra	Nashik	Dengue	1	1	08-07-2024	23-07-2024	Under Control	Cases were reported from Health Facility: Wadivarhe, Sub-District: Igatpuri, District: NASHIK. Cases presented with fever. One sample tested at Vrundavan Multispecitily Hospital Nashik was positive for Dengue NS1Ag. District RRT investigated the outbreak. Community awareness and health education given by peripheral team on vector control measures, hygiene and sanitation. Death of a 36 year old female has occurred due to the illness at Vrundavan Multispecitily Hospital Nashik.
MH/NSK/2024/30/1731	Maharashtra	Nashik	Acute Diarrheal Disease	79	0	16-07-2024	23-07-2024	Under Control	Cases were reported from Kochargaon TR, Village: Kochargaon, Sub-District: Dindori, District: Nashik. Cases presented with loose motions after consumption of contaminated water of hand pump. All age groups were affected. Out of 10 water samples sent to DPHL Nashik, 7 were found to be unfit for drinking purpose on microbiological testing. District RRT investigated the outbreak. Community awareness and health education given by peripheral team on control measures, hygiene and sanitation.

MH/YVT/2024/30/1732	Maharashtra	Yavatmal	Cholera	8	0	19-07-2024	22-07-2024	Under Control	Cases were reported from Health Facility: Akola Bazar TR, Village: Borisinh, Sub-District: Yavatmal, District: Yavatmal. Cases presented with loose motion. Eight samples were sent for testing, out of which 3 were positive for Vibrio cholera by microscopy. Water samples were taken for bacteriological examination. District RRT investigated the outbreak. Community awareness and health education given by peripheral team on control measures, hygiene and sanitation.
MG/EKH/2024/30/1733	Meghalaya	East Khasi Hills	Measles	94	0	23-07-2024	25-07-2024	Under Surveillance	Cases were reported from Umlyngka Village, under Shastri Memorial State Dispensary, Sub-District: Myllem, District: East Khasi Hills. Cases presented with fever, rash, conjunctivitis, cough, and coryza. The affected age group was 2 months to 13 years. Out of the 94 cases, 73 were unvaccinated against Measles and Rubella (MR).
