AS/LKM/2024/32/1865	Assam	Lakhimpur	Acute Diarrheal Disease	86	0	06-08-2024	06-08-2024	Under Surveillance	Cases reported from Naharbari village under Amtola AAM of Nowboicha CHC. Cases presented with fever, vomiting and loose motion after attending a religious gathering. Total 15 rectal swab samples were collected & sent to DPHL Telahi Model Hospital, out of which 14 were positive for Staphylococcus on culture. One water sample was collected & sent to DPHL Telahi Model Hospital, which was found to be intermediate for drinking purpose by MPN method (9 MPN per 100 ml water). District RRT investigated the outbreak. Community awareness and health education given by peripheral team on control measures, hygiene and sanitation.
BH/JHB/2024/32/1866	Bihar	Jehanabad	Acute Diarrheal Disease	30	0	04-08-2024	08-08-2024	Under Surveillance	Cases were reported from Village Kharauna, Sub-District Makhdumpur, District Jehanabad. Cases presented with loose stools, vomiting and weakness. 5 stool samples and water samples were collected and sent to PHED. Stool samples did not show any pathogenic organism on culture. District RRT investigated the outbreak. Cases treated symptomatically. Community awareness and health education given by peripheral team on hygiene and sanitation.
CT/BLD/2024/32/1867	Chhattisgarh	Balod	Acute Diarrheal Disease	169	0	06-08-2024	06-08-2024	Under Control	Cases were reported from Health Facility: Sankri, Village: Pairi, Sub-District: Gunderdehi. Cases presented with diarrhea and vomiting. Ten water samples were sent to PHED, Balod, all were found to be safe for drinking. District RRT investigated the outbreak. Community awareness and health education given by peripheral team on control measures, hygiene and sanitation.

CT/BBZ/2024/32/1868	Chhattisgarh	Baloda Bazar	Acute Diarrheal Disease	24	0	04-08-2024	05-08-2024	Under Control	Cases were reported from Health Facility: Lahod, Village: Damru, Sub-District: Lawan. Cases presented with diarrhea and vomiting. Eight stool and three water samples were sent to DPHL and PHED Balodabazar. Stool samples were negative for any entero-pathogen on culture and all water samples were positive for Klebsiella on culture. District RRT investigated the outbreak. Community awareness and health education given by peripheral team on control measures, hygiene and sanitation.
CT/BMT/2024/32/1869	Chhattisgarh	Bemetara	Acute Diarrheal Disease	52	0	07-08-2024	07-08-2024	Under Surveillance	Cases were reported from PHC Karesara, Village: Sagona, Sub-District: Thanakhmria. Cases presented with diarrhea and vomiting. Two water samples were sent to PHED, all were found to be potable. District RRT investigated the outbreak. Community awareness and health education given by peripheral team on control measures, hygiene and sanitation.
CT/JJC/2024/32/1870	Chhattisgarh	Janjgir-Champa	Acute Diarrheal Disease	34	0	10-08-2024	11-08-2024	Under Surveillance	Cases were reported from Village: Amoda, Sub-District: Navagarh. Cases presented with diarrhea and vomiting. District RRT investigated the outbreak. Community awareness and health education given by peripheral team on control measures, hygiene and sanitation.
CT/RAP/2024/32/1871	Chhattisgarh	Raipur	Acute Diarrheal Disease	44	0	08-08-2024	11-08-2024	Under Surveillance	Cases were reported from Health Facility: Champaran, Village: Ghont, Sub-District: Gobra Navapara, District: Raipur. Cases presented with diarrhea and vomiting. One water sample was sent to Hamar Lab Pandri, which was positive for Salmonella typhi and Coliform. One stool sample was sent to Hamar Lab Pandri which was found to be negative for any entero-pathogen. District RRT investigated the outbreak. Community awareness and health education given by peripheral team on control measures, hygiene and sanitation.

CT/RAP/2024/32/1872	Chhattisgarh	Raipur	Acute Diarrheal Disease	45	0	10-08-2024	10-08-2024	Under Surveillance	Cases were reported from Health Facility: Dondekala, Village: Pawani, Sub-District: Dharsiwa, District: Raipur. Cases presented with diarrhea and vomiting. One stool sample was sent to Hamar Lab Pandri, which was found to be negative for any entero-pathogen. District RRT investigated the outbreak. Community awareness and health education given by peripheral team on control measures, hygiene and sanitation.
CT/RAP/2024/32/1873	Chhattisgarh	Raipur	Acute Diarrheal Disease	42	0	08-08-2024	10-08-2024	Under Surveillance	Cases were reported from Health Facility: Khilora, Village: Tekari, Sub-District: Abhanpur, District: Raipur. Cases presented with diarrhea and vomiting. One stool sample was sent to Hamar Lab Pandri, which was found to be negative for any entero-pathogen. District RRT investigated the outbreak. Community awareness and health education given by peripheral team on control measures, hygiene and sanitation.
CT/RAP/2024/32/1874	Chhattisgarh	Raipur	Acute Diarrheal Disease	77	0	07-08-2024	08-08-2024	Under Surveillance	Cases were reported from PHC Khairkhut, Village: Lakhna, Sub-District: Tilda, District: Raipur. Cases presented with diarrhea and vomiting. Three stool samples were sent to Hamar Lab Pandri, all were negative for any entero-pathogen. Four water samples were sent to Hamar Lab Pandri, all were positive for Coliforms. District RRT investigated the outbreak. Community awareness and health education given by peripheral team on control measures, hygiene and sanitation.
CT/RJG/2024/32/1875	Chhattisgarh	Rajnandgaon	Acute Diarrheal Disease	28	0	04-08-2024	05-08-2024	Under Surveillance	Cases were reported from Health Facility: Dumardeeh Kala, Village: Kanketra, Sub-District: Rajnandgaon. Cases presented with diarrhea and vomiting. District RRT investigated the outbreak. Community awareness and health education given by peripheral team on control measures, hygiene and sanitation.

CT/RJG/2024/32/1876	Chhattisgarh	Rajnandgaon	Acute Diarrheal Disease	12	0	04-08-2024	05-08-2024	Under Surveillance	Cases were reported from PHC Mangata, Village: Mangata, Sub-District: Rajnandgaon. Cases presented with diarrhea and vomiting. District RRT investigated the outbreak. Community awareness and health education given by peripheral team on control measures, hygiene and sanitation.
CT/RJG/2024/32/1877	Chhattisgarh	Rajnandgaon	Acute Diarrheal Disease	28	0	04-08-2024	05-08-2024	Under Surveillance	Cases were reported from Health Facility: Karamtara, Village: Sonesarar, Sub-District: Dongargaon. Cases presented with diarrhea and vomiting. District RRT investigated the outbreak. Community awareness and health education given by peripheral team on control measures, hygiene and sanitation.
CT/RJG/2024/32/1878	Chhattisgarh	Rajnandgaon	Acute Diarrheal Disease	57	0	03-08-2024	05-08-2024	Under Surveillance	Cases were reported from Village: Rampur, Sub-District: Dongargaon, District: Rajnandgaon. Cases presented with diarrhea and vomiting. District RRT investigated the outbreak. Community awareness and health education given by peripheral team on control measures, hygiene and sanitation.
CT/SRB/2024/32/1879	Chhattisgarh	Sarangarh Bilaigarh	Acute Diarrheal Disease	93	0	04-08-2024	05-08-2024	Under Control	Cases were reported from Village: Bhatgaon, Sub-District: Bilaigarh, District: Sarangarh Bilaigarh. Cases presented with diarrhea and vomiting. District RRT investigated the outbreak. Community awareness and health education given by peripheral team on control measures, hygiene and sanitation.
GJ/GND/2024/32/1880	Gujarat	Gandhinagar	Acute Diarrheal Disease	5	0	06-08-2024	08-08-2024	Under Control	Cases were reported from UPHC Kudasan, Village: Sargasan (OG), Sub-District: Gandhinagar, District: Gandhinagar. Cases presented with diarrhea and vomiting. The affected age group was 1-60 years. Total 5 samples were collected and sent to GMERS Gandhinagar, out of which 1 was positive for Cholera. District .RRT investigated the outbreak. Community awareness and health education given by peripheral team on control measures, hygiene and sanitation.

GJ/NMD/2024/32/1881	Gujarat	Narmada	Acute Diarrheal Disease	5	0	07-08-2024	07-08-2024	Under Surveillance	Cases were reported from PHC Nava Vaghpara, Village: Sanjroli, Sub-District: Garud Eshwar, District: Narmada. Cases presented with diarrhea after attending a religious festival. The affected age group was 5-60 years. District RRT investigated the outbreak.
