CT/BJP/2024/36/2191	Chhattisgarh	Bijapur	Measles	9	0	04-09-2024	04-09-2024	Under Surveillance	Cases were reported from PHC Mirtur, Nelsnar, Bhairamgarh, Village: Fulgatta, Sub-District: Bhairamgarh. Cases presented with maculopapular rash, fever and cough. All cases were below 9 years of age. Total 15 serum samples were sent to IPM Lab Hyderabad, out of which 9 were positive for Measles IgM by ELISA. District RRT investigated the outbreak. Community awareness and health education given by peripheral team on control measures, hygiene and sanitation.
CT/DHM/2024/36/2192	Chhattisgarh	Dhamtari	Acute Diarrheal Disease	26	0	04-09-2024	05-09-2024	Under Control	Cases were reported from Health Facility: Jamgaon, Village: Anwari, Sub-District: Kurud. Cases presented with diarrhea and vomiting. District RRT investigated the outbreak. Community awareness and health education given by peripheral team on control measures, hygiene and sanitation.
CT/MUG/2024/36/2193	Chhattisgarh	Mungeli	Acute Diarrheal Disease	109	0	03-09-2024	03-09-2024	Under Control	Cases were reported from Health Facility: Setganga, Village: Dullapur, Sub-District: Mungeli, District: Mungeli. Cases presented with diarrhea. District RRT investigated the outbreak. Community awareness and health education given by peripheral team on control measures, hygiene and sanitation.

CT/RIG/2024/36/2194	Chhattisgarh	Raigarh	Acute Diarrheal Disease	38	0	03-09-2024	03-09-2024	Under Surveillance	Cases were reported from Health Facility: Chhapora, Village: Lara, Sub-District: Pusour. One stool sample was sent to Medical College Raigarh for stool culture, which was negative for any entero-pathogen on culture. District RRT investigated the outbreak. Community awareness and health education given by peripheral team on control measures, hygiene and sanitation.
GJ/VDD/2024/36/2195	Gujarat	Vadodara	Cholera	29	0	05-09-2024	06-09-2024	Under Control	Cases were reported from Raypura, CHC Padra, Village: Samiyala, Sub-District: Vadodara Rural, District: Vadodara. Cases presented with diarrhea. One stool & 3 water samples were sent to Microbiology Lab SSGH Vadodara. Stool sample was positive for Cholera on culture. All water samples were found to be H2S positive & showed presence of coliform and fecal coliform & was found to be unsatisfactory for consumption. District RRT investigated the outbreak. Community awareness and health education given by peripheral team on control measures, hygiene and sanitation.
HR/YMN/2024/36/2196	Haryana	Yamunanagar	Acute Diarrheal Disease	34	0	05-09-2024	05-09-2024	Under Control	Cases reported from Village Mahlanwali, PHC Arnauli, CHC Saraswati Nagar. Cases presented with loose watery stool, abdominal pain, dehydration. The most affected age group was 18-60 years. Five stool samples were sent to DPHL Yamuna Nagar, all were negative for any entero-pathogen on culture. Two water samples sent for testing were found to be bacteriologically unfit. District RRT investigated the outbreak. Community awareness and health education given by peripheral team on control measures, hygiene and sanitation.

JK/BON/2024/36/2197	Jammu and Kashmir	Bandipora	Cholera	23	0	02-09-2024	03-09-2024	Under Surveillance	Cases reported from Village: Gojarpati area of Shokbaba Sumlar, Block: Bandipora, District: Bandipora. Cases presented with diarrhea. The affected age group was 1-65 years. Five stool samples were collected & sent to SKIMS Srinagar, out of which 3 were positive for Vibrio cholera on culture. Five water samples collected & sent to DPHL Bandipora, all were found to be non-potable. District RRT investigated the outbreak. Community awareness and health education given by peripheral team on control measures, hygiene and sanitation.
JK/KTH/2024/36/2198	Jammu and Kashmir	Kathua	Dengue	5	0	05-09-2024	05-09-2024	Under Surveillance	Cases were reported from Urban area (Ward 1, 4), Sub-District: Kathua, District: Kathua. Cases presented with fever. The affected age group was 5-75 years. A total of 5 blood samples were tested at DPHL Urban Kathua, all were positive for NS1 Ag by ELISA. District RRT investigated the outbreak. Community awareness and health education given by peripheral team on vector control measures, hygiene and sanitation.
JK/SOP/2024/36/2199	Jammu and Kashmir	Shopian	Hepatitis A	10	0	03-09-2024	04-09-2024	Under Surveillance	Cases reported from Block Sedow, Village Chanchmarg. Cases presented with jaundice. The affected age group was 8-28 years. Four water & 10 blood samples were collected and sent to DPHL Shopian. Seven blood samples were positive for Hepatitis A IgM by ELISA. All water samples were found to be unsatisfactory by MPN method. District RRT investigated the outbreak. Community awareness and health education given by peripheral team on control measures, hygiene and sanitation.

JK/SRN/2024/36/2200	Jammu and Kashmir	Srinagar	Hepatitis A	10	0	03-09-2024	03-09-2024	Under Surveillance	Cases reported from a school in Ching Mohalla, Shalimar & adjoining areas, Zone Zadibal. Cases presented jaundice. The affected age group was 5-49 years. Seven blood samples for serology and 2 water samples for bacteriology were collected and sent to DPHL JLNH Hospital. Out of 7 blood samples, 2 were positive for Hepatitis A IgM by ELISA & both the water samples were found to be unfit for consumption. District RRT investigated the outbreak. Community awareness and health education given by peripheral team on control measures, hygiene and sanitation.
JK/UDP/2024/36/2201	Jammu and Kashmir	Udhampur	Cholera	47	0	02-09-2024	04-09-2024	Under Surveillance	Cases reported from Panchari District Udhampur Health Facility: Samroli, Jaganoo. Cases presented with fever, headache, body ache, rashes. One stool sample was collected & sent to DPHL Udhampur, which was positive for Vibrio cholera on culture. District RRT investigated the outbreak. Community awareness and health education given by peripheral team on control measures, hygiene and sanitation.
JH/GIR/2024/36/2202	Jharkhand	Giridih	Acute Diarrheal Disease	12	1	02-09-2024	02-09-2024	Under Surveillance	Cases were reported from Village Jorasemar, Sub-District Tisri, District Giridih. Cases presented with loose stools. District RRT investigated the outbreak. Cases treated symptomatically. Community awareness and health education given by peripheral team on hygiene and sanitation. Death of a 3 year old female child has occurred due to the illness.
JH/GIR/2024/36/2203	Jharkhand	Giridih	Acute Diarrheal Disease	19	1	03-09-2024	03-09-2024	Under Control	Cases were reported from Village Badkitand, Sub-District Bengabad, District Giridih. Cases presented with loose stools. District RRT investigated the outbreak. Cases treated symptomatically. Community awareness and health education given by peripheral team on hygiene and sanitation. Death of a 12 year old male child has occurred due to the illness.

KN/UDP/2024/36/2204	Karnataka	Udupi	Cholera	8	0	04-09-2024	05-09-2024	Under Control	Cases were reported from Health Facility: Idu, Village: Eedu, Sub-District: Karkal, District: Udupi. Cases presented with vomiting, rice watery stools. The affected age group was 14-48 years. Eight stool samples were sent to DPHL Udupi, out of which 4 were positive for Cholera on culture & microscopy. District RRT investigated the outbreak. Community awareness and health education given by peripheral team on control measures, hygiene and sanitation.
KN/UTK/2024/36/2205	Karnataka	Uttar Kannad	Acute Diarrheal Disease	91	1	02-09-2024	02-09-2024	Under Surveillance	Cases were reported from UPHC Karwar, Village: Baithkol, Sub-District: Karwar, District: Uttar Kannad. Cases presented with diarrhea. Total 36 stool samples were sent to Karwar Institute of Medical Sciences (KRIMS), out of which 3 were positive for Vibrio cholerae on culture & 6 were positive on microscopy. Total 243 drinking water samples were sent for testing, out of which 48 were found to be not suitable for portable purpose. MPN test was conducted for 5 water samples, out of which 4 were found to be not suitable for portable purpose. District RRT investigated the outbreak. Community awareness and health education given by peripheral team on control measures, hygiene and sanitation. Death of a 24 year old male has occurred due to the illness.
KL/IDK/2024/36/2206	Kerala	Idukki	Mumps	21	0	02-09-2024	03-09-2024	Under Surveillance	Cases were reported from a school under CHC Karunapuram, Sub-District: Udumbanchola, District: Idukki. Cases presented with fever and swelling in the salivary glands. The affected age group was 4-5 years. All cases were diagnosed clinically. District RRT investigated the outbreak. Community awareness and health education given by peripheral team on control measures, hygiene, sanitation and importance of vaccination.

KL/KOZ/2024/36/2207	Kerala	Kozhikode	Hepatitis A	71	0	04-09-2024	06-09-2024	Under Surveillance	Cases were reported from UHC Mankavu, Village: Valayanad, Sub-District: Kozhikode, District: Kozhikode. Cases presented with fever, vomiting, fatigue & anorexia. The most affected age group was 11-20 years. Two blood samples were sent to MCH KKD and Aster MIMS, both were positive for Hepatitis A IgM by ELISA. One water samples was sent to RAL Malapparamba for water analysis, which showed presence of E.coli & Coliforms. District RRT investigated the outbreak. Community awareness and health education given by peripheral team on control measures, hygiene and sanitation.
KL/KOZ/2024/36/2208	Kerala	Kozhikode	Dengue	20	0	04-09-2024	04-09-2024	Under Surveillance	Cases were reported from Health Facility: W&C Kozhikode, Village: Kuruvattur (CT), Sub-District: Kozhikode, District: Kozhikode. Cases presented with fever. The affected age group was 31-60 years. One sample was sent to Micro Lab, Kunnamangalam, which was positive for Dengue IgM by ELISA. District RRT investigated the outbreak. Community awareness and health education given by peripheral team on vector control measures, hygiene and sanitation.
MP/BRW/2024/36/2209	Madhya Pradesh	Barwani	Acute Diarrheal Disease	27	0	02-09-2024	02-09-2024	Under Control	Cases reported from Village: Matrala, Sub-District: Pansemal, District: Barwani. Cases presented with loose motions and vomiting. The affected age group was 5-60 years. One stool & 1 water sample was collected & sent to DPHL Indore. Stool sample was negative for any enteropathogen on culture. Water sample was found to be unsatisfactory. District RRT investigated the outbreak. Community awareness and health education given by peripheral team on control measures, hygiene and sanitation.

MP/GUN/2024/36/2210	Madhya Pradesh	Guna	Dengue	18	0	06-09-2024	06-09-2024	Under Surveillance	Cases reported from HWC Khejra, Block Bhadora. Cases presented with fever with rashes, headache, vomiting and joint pain. The most affected age group was 11-30 years. Total 18 blood samples were collected & sent to DH Guna, 8 were positive for Dengue NS1 Ag by ELISA. District RRT investigated the outbreak. MP/HRD/2024/36/2211	Madhya Pradesh	Harda	Dengue	10	0	03-09-2024	05-09-2024	Under Control	Cases were reported from Village: Pantalai, Sub-District: Rehatgaon, District: Harda. Cases presented with fever, body pain. Three samples were collected & sent to DH Harda, all were positive for Dengue NS1 Ag by ELISA. District RRT investigated the outbreak. Community awareness and health education given by peripheral team on vector control measures, hygiene and sanitation.
MP/MND/2024/36/2212	Madhya Pradesh	Mandla	Acute Diarrheal Disease	47	0	05-09-2024	05-09-2024	Under Surveillance	Cases reported from Village Mohgaon, Sec. Khirkhiri, Block Nainpur. Cases presented with abdominal pain, vomiting & loose motion. The affected age group was 2-65 years. Three stool samples were collected and sent to NSCB Medical College Jabalpur, all were negative for GI bacterial pathogen (Vibrio cholerae, Salmonella spp. & Shigella spp.) on culture. Two water samples were collected sent to NSCB Medical College Jabalpur, all were found to be unsafe in H2S strip test for water testing. District RRT investigated the outbreak. Community awareness and health education given by peripheral team on control measures, hygiene and sanitation.

MP/REW/2024/36/2213	Madhya Pradesh	Rewa	Acute Diarrheal Disease	10	0	03-09-2024	03-09-2024	Under Surveillance	Cases reported from PHC Baron, PHC Chachi, Village: Shahpur 540, Sub-District: Sirmour, District: Rewa. Cases presented with diarrhea and vomiting. The affected age group was 15 to 45 years. Four stool & 1 water sample were sent to DPHL DH Rewa, all were negative for any entero-pathogen on culture. District RRT investigated the outbreak. Community awareness and health education given by peripheral team on control measures, hygiene and sanitation.
MP/REW/2024/36/2214	Madhya Pradesh	Rewa	Acute Diarrheal Disease	8	0	01-09-2024	02-09-2024	Under Control	Cases reported from CH Mauganj, Village: Deori Shivmangalsingh, Sub-District: Mauganj, District: Rewa. Cases presented with diarrhea and vomiting. The affected age group was 11 to 60 years. Two Stool & 1 Water samples were sent to DPHL DH Rewa, all were negative for any entero-pathogen on culture. District RRT investigated the outbreak. Community awareness and health education given by peripheral team on control measures, hygiene and sanitation.
MP/STN/2024/36/2215	Madhya Pradesh	Satna	Acute Diarrheal Disease	31	2	06-09-2024	06-09-2024	Under Surveillance	Cases reported from Karahiya Kala Village. Cases presented with the symptoms of vomiting & diarrhea. The affected age group was 5-70 years. One stool sample was collected & sent to Dept. of Microbiology SS Medical College Rewa, which was negative for any entero-pathogen on culture. District RRT investigated the outbreak. Community awareness and health education given by peripheral team on control measures, hygiene and sanitation. Death of a 9 year & a 70 year old male has occurred due to the illness.

MP/STN/2024/36/2216	Madhya Pradesh	Satna	Acute Diarrheal Disease	24	0	05-09-2024	05-09-2024	Under Surveillance	Cases reported from Gorhai Village, Block Ramnagar, District Maihar. Cases presented with diarrhea and vomiting. The affected age group was 5-60 year. One stool & 1 water sample was collected & sent to DPHL Rewa. Water samples showed presence of coliform bacteria on water culture. Stool sample was negative for any entero-pathogen on culture. District RRT investigated the outbreak. Community awareness and health education given by peripheral team on control measures, hygiene and sanitation.
MP/SJP/2024/36/2217	Madhya Pradesh	Shajapur	Dengue	6	0	04-09-2024	08-09-2024	Under Surveillance	Cases reported from Village Makodi, PHC Makodi, CHC Sundarsi Block Shajapur (Sundarsi), District Shajapur. Cases presented with fever & body ache. The affected age group was 9-20 years. Total 15 serum samples were collected and sent to DH Shajapur, out of which 6 were positive for Dengue NS1 Ag by ELISA. District RRT investigated the outbreak. Community awareness and health education given by peripheral team on vector control measures, hygiene and sanitation. Health camp was organized. Fever survey was conducted.
MP/UMR/2024/36/2218	Madhya Pradesh	Umaria	Acute Diarrheal Disease	8	0	08-09-2024	08-09-2024	Under Surveillance	Cases were reported from CHC Pali, Village: Ghun Ghuti, Sub-District: Pali, District: Umaria. Cases presented with diarrhea. The affected age group was 10-50 years. Three stool samples were collected & sent to Microbiology Lab Rewa, all were negative for any entero-pathogen on culture. District RRT investigated the outbreak. Community awareness and health education given by peripheral team on control measures, hygiene and sanitation.

MP/UMR/2024/36/2219	Madhya Pradesh	Umaria	Acute Diarrheal Disease	7	0	08-09-2024	08-09-2024	Under Surveillance	Cases were reported from Village Ghulghuli, SHC Ghulghuli, PHC Ghulghuli, Block Karkeli, District Umaria. Cases presented with symptoms of loose motion. The affected age group was 20-50 years. Four stool samples were collected & sent to Microbiology Lab Rewa, all were negative for any entero-pathogen on culture. District RRT investigated the outbreak. Community awareness and health education given by peripheral team on control measures, hygiene and sanitation.
MP/UMR/2024/36/2220	Madhya Pradesh	Umaria	Acute Diarrheal Disease	6	0	06-09-2024	06-09-2024	Under Surveillance	Cases were reported from Ward no. 13, Urban Chandia, CHC Chandia, Block Karkeli, District Umaria. Cases presented with symptoms of loose motion. The affected age group was 20-45 years. Four stool samples were collected & sent to Microbiology Lab Rewa, all were negative for any entero-pathogen on culture. District RRT investigated the outbreak. Community awareness and health education given by peripheral team on control measures, hygiene and sanitation.
MH/HNG/2024/36/2221	Maharashtra	Hingoli	Acute Diarrheal Disease	7	0	05-09-2024	07-09-2024	Under Control	Cases reported from Village Marsulwadi Tanda, Block Basmath, SC Wai, PHC Pangara Shinde. Cases presented with loose watery stool, weakness etc. The affected age group was 15-55 years. Four water samples were collected & sent to DPHL, all were found to be potable. District RRT investigated the outbreak. Community awareness and health education given by peripheral team on control measures, hygiene and sanitation.

MH/KOP/2024/36/2222	Maharashtra	Kolhapur	Hepatitis A	48	0	02-09-2024	03-09-2024	Under Surveillance	Cases reported from Village Nadhawade, Block Bhudargad, SC Nadhawade, PHC Minache Kh. Cases presented with fever, vomiting, loss of appetite, icterus. The affected age group was 8-25 years. Six serum samples were collected & sent to RCSMGMC Kolhapur, out of which 3 were positive for Hepatitis A IgM by ELISA. District RRT investigated the outbreak. Community awareness and health education given by peripheral team on control measures, hygiene and sanitation.
MH/NAN/2024/36/2223	Maharashtra	Nanded	Dengue	7	0	05-09-2024	06-09-2024	Under Surveillance	Cases Reported from Village Dasunaik Tanda, Block Mahur, SC Asoli, PHC Ashta. Cases presented with fever, weakness. The affected age group was 5-14 years. Total 12 serum samples were collected & sent to GMC Nanded, out of which 7 were positive for Dengue IgM by ELISA. District RRT investigated the outbreak. Community awareness and health education given by peripheral team on vector control measures, hygiene and sanitation.
MH/OSM/2024/36/2224	Maharashtra	Osmanabad	Dengue	21	1	02-09-2024	04-09-2024	Under Control	Cases reported from Urban area Patange Nagar, Omerga. Cases presented with fever. Total 21 serum samples were sent to GMC Solapur, out of which 1 was positive for Dengue IgM by ELISA. District RRT investigated the outbreak. Community awareness and health education given by peripheral team on vector control measures, hygiene and sanitation. Death of a 12 year old has occurred due to the illness.
MH/THE/2024/36/2225	Maharashtra	Thane	Malaria	1	1	06-09-2024	06-09-2024	Under Surveillance	Case reported from Village Tilak Nagar, Block Kalyan Dombivali Municipal Corporation, UPHC Manjunath. Case presented with fever, weakness. Three blood samples were collected & sent to GMC Thane, out of which 1 was positive for Malaria (P.vivax & P.falciparum). District RRT investigated the outbreak. Community awareness and health education given by peripheral team on vector control measures, hygiene and sanitation. Death of a 56 year old male has occurred due to the illness (positive for P.vivax & P.falciparum).

MH/THE/2024/36/2226	Maharashtra	Thane	Dengue	7	1	31-08-2024	05-09-2024	Under Surveillance	Cases reported from Village Basera Park, Kausa, Thane Municipal Corporation, UPHC Kausa. Cases presented with high grade fever, body ache, weakness. The affected age group was 30-60 years. Seven serum samples were collected & sent to RGMC Kalwa, Thane, out of which 1 was positive for Dengue NS1 Ag by RDK. District RRT investigated the outbreak. Community awareness and health education given by peripheral team on vector control measures, hygiene and sanitation. Death of a 66 year old female has occurred due to the illness (positive for Dengue).
MN/BSN/2024/36/2227	Manipur	Bishnupur	Scrub Typhus	2	1	02-09-2024	03-09-2024	Under Control	Cases were reported from Thanga Moirangthem Leikai. Cases presented with high fever and abdominal pain. One blood sample was sent to VRDL RIMS IMPHAL, which was for positive for Scrub Typhus IgM by ELISA & RTPCR. District RRT investigated the outbreak. Community awareness and health education given by peripheral team on scrub typhus. Death of a 6 year old male child has occurred due to the illness.
OR/BAL/2024/36/2228	Odisha	Balangir	Acute Gastroenteritis	116	0	07-09-2024	08-09-2024	Under Control	Cases were reported from Village: Chadotara, Sub-District: Sindhekela, District: Balangir. Cases presented with loose motion & vomiting. The affected age group was 15-44 years. Three water samples & 1 rectal swab were sent to DPHL Balangir. Out of 3 water samples, 1 was H2S positive. No entero-pathogenic organism was found in rectal swab on culture. District RRT investigated the outbreak. Community awareness and health education given by peripheral team on control measures, hygiene and sanitation. The outbreak might be caused by consumption of contaminated water.

OR/BAL/2024/36/2229	Odisha	Balangir	Food Poisoning	7	0	03-09-2024	03-09-2024	Under Control	Cases were reported from Deogaon CHC, Village: Gudkhapala, Sub-District: Tushura, District: Balangir. Cases presented with loose motion & vomiting after consumption of dried fish on 2.9.2024. The affected age group was 15-44 years. District RRT investigated the outbreak.
